

In the Claims:

Please amend the claims as follows:

Claims:

1. (Original) A therapeutic beauty mask comprising
 - (a) a mask body,
 - (b) means for attaching and securing the body to cover at least a portion of a person's face,
 - (c) a plurality of passive pressure points extending from an undersurface of the mask body, said pressure points being adapted or adjustable to coincide with known acupressure points of the human face.
2. (Currently amended) The A mask as claimed in claim 1 wherein the mask covers eye and nose regions of the person's face.
3. (Currently amended) The A mask as claimed in claim 1 wherein the mask body is moulded.
4. (Currently amended) The A mask according to claim 1 wherein the pressure points include a hemispherical or curved outer surface to contact the face when the mask is in position.
5. (Currently amended) The A mask as claimed in claim 4 wherein the mask body is provided with a plurality of groups of apertures, each group located in the mask at a location corresponding to local acupressure areas of the face, such that when in position, the groups of apertures in the mask overlies local acupressure areas of the face.
6. (Currently amended) The A mask as claimed in claim 5 wherein the pressure points include a mounting portion extending from the rear of the hemispherical or curved outer surface to facilitate mounting of the knobs on the mask.

7. (Currently amended) The A mask as claimed in claim 1 wherein the body is moulded in a resilient material.

8. (Currently amended) The A mask according to claim 1 wherein the pressure points are removably attachable to the mask.

9. (Currently amended) The A mask as claimed in claim 1 wherein the body is moulded with eye apertures and has a shaped nose portion.

10. (Currently amended) The A mask as claimed in ~~any one of claims 1 to 5~~ claim 1 wherein the pressure points are in clusters coinciding with selected positions on the forehead and cheek bones of the human face.
